

## EXECUTIVE SUMMARY

A **full-stack web developer** with over 2 years of IT experience in designing, developing, and deploying web applications from scratch. A creative problem solver and team-oriented specialist who transforms ideas into action using modern technologies, clean code, and user-friendly design. Fluent in English and Chinese, with a track record of effective communication and negotiations with clients for over 8 years.

## FUNCTIONAL EXPERTISE

- **Programming and Designing Web Apps**
- **Teamwork, Cross-functional communication**
- **Project Management**
- **Creative Problem Solving/Strategic Thinking**
- **Compliance and Meeting Timelines**
- **Negotiations and Customer Service**

## FUNCTIONAL EXPERTISE DEMONSTRATED

### ELIFTECH LLC

July 2023 – June 2024

*One of Ukraine's Upwork best agencies and largest providers of IT solutions for fintech, e-commerce, healthcare, etc. Top 500 Leading B2B Service providers in Poland and Ukraine, with ~150 full-time staff.*

### **Full-Stack Web Developer**

Participated in IT projects with budgets ranging from USD ~\$100,000 to ~\$10,000, including software development and integration, new features, IT architecture/security, and ongoing support deliverables.

- **Programming, Project Management:** Single-handedly designed and developed a complex construction-related company inner web app (front, back, DB, AWS deployment), fully responsible for the project and the communication with a company CEO.
- **Creative Problem Solving/ Strategic Thinking:** Created a product generator for various safety protector products like guardrails and pedestrian tunnels, calculating the whole product price and components by inputting the dimensions. Thus, it solved the long-going problem of the client who had to calculate each product individually in Google Spreadsheets and increased the company's operational speed by 87% and conversion rate by 1.75%.
- **Teamwork, Cross-functional communication:** Proactively worked cross-functionally and cross-departmentally to develop, launch, and support various projects. Suggested and implemented various features, and end-to-end solutions, conducted code reviews.
- **Compliance and Meeting Timelines:** Adherence to the deadlines, and correct estimates of different features implementations according to the client's requirements.

### DEVELOPS.TODAY

May 2022 – June 2023

*A Kyiv-based IT services firm with ~120+ staff, specializing in full-cycle web and mobile software dev.*

### **Full-Stack Web Developer**

Responsible for designing, planning, testing, rolling out, and providing ongoing support for a variety of web apps, using the latest technologies and frameworks (front and back-end).

- **Programming and Designing Web Apps:** Consistently designed, resourced, and built out IT operations solutions. Participated in the creation and management of over 10 projects, from landing pages to full-stack web apps in e-commerce, fintech, education, etc.
- **Project Management:** Estimated workloads, led all post-contract client relationships, implemented features according to the tech requirements, and suggested different improvements to the existing functionality.
- **Negotiations and Customer Service:** Attended job interviews and live coding sessions, successfully securing 5 contracts with new clients.

## PREVIOUS ROLES

**Customer Service Manager, Sales Executive / Contract Supervisor – China-Ukraine (2014-2022)**
